

PRO-TEC™

ChlorSeptic 2% with Aloe Vera Antiseptic Antimicrobial Skin Cleanser

FEATURES AND BENEFITS

- Chlorhexidine scrubs have shown to be more effective in killing bacteria than povidone-iodine scrubs, plus have residual effects lasting up to 6 hours.
- The addition of aloe vera provides needed moisturizing relief for surgeons.
- Unlike other products on the market, the Pro-Tec™ ChlorSeptic formulation contains no harsh detergents, sulfates or harsh quaternium ammonium substances.
- The ChlorSeptic formulation includes gentle surfactants and lipid layer enhancers which aid in reducing the drying and cracking of skin due to excessive washing.
- Monograph label format complies with FDA labeling guidelines for human surgical scrubs, and places product in the “approved” category, while all other veterinary labeled products are in the “unapproved other” category.

Antiseptic Antimicrobial Skin Cleanser

Fast-acting, broad-spectrum
antimicrobial skin cleanser

For External Use Only
1 Gallon (3.79 L)

Warnings (continued) When using this product
<ul style="list-style-type: none"> ■ keep out of eyes, ears and mouth. May cause serious and permanent eye injury if placed or kept in the eye during surgical procedures, or may cause deafness when instilled in the middle ear through perforated eardrums. ■ If contact occurs, immediately flush and thoroughly clean with cold water.
Stop use and ask a doctor if irritation, sensitization or allergic reaction occurs and lasts for 72 hours. These may be signs of a serious condition.
Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.
Directions
<ul style="list-style-type: none"> ■ Skin wound and general skin cleansing. Thoroughly rinse the area to be cleansed with water. Apply the minimum amount of ChlorSeptic necessary to cover the skin or wound area and wash gently. Rinse thoroughly. ■ Surgical hand scrub. Wet hands and forearms with water. Scrub for 3 minutes with about 5 ml of ChlorSeptic with a brush. Rinse thoroughly under running water. Repeat. Dry thoroughly. ■ Personnel hand wash. Wet hands with water. Dispense about 5 ml of ChlorSeptic into cupped hands and wash in a vigorous manner for 15 seconds. Rinse and dry thoroughly. ■ Preoperative skin preparation. Apply ChlorSeptic liberally to surgical site and swab for at least 2 minutes. Dry with a sterile towel. Repeat. Dry with a sterile towel.
Other Information Store between 20–25° C (68–77° F).
