

# ORAL-PRO™

## Oregano

### 10% Oregano Oil Liquid Flavor Concentrate

#### FEATURES AND BENEFITS

- ORAL-PRO Oregano aids in reducing stress caused by environmental conditions, transporting, weaning and disease challenges.
- The product offers strong antioxidant characteristics which help strengthen the immune system while improving gut health.
- ORAL-PRO Oregano improves water intake due to palatability qualities. Lower odor levels than competitors' products due to our pure solution instead of some emulsion formulations. Our pure solution supports palatability of the oil.
- ORAL-PRO Oregano offers a stable solution compared to some emulsion formulations that may separate and require frequent shaking. Ease of administration in either in water or on feed.
- Our formulation also serves as a water stabilizer.

REORDER NO: 24002
