

BARRIER[®]

Wound Care Spray With Pain Relief 2% Available Iodine With Lidocaine

INDICATIONS

For topical use in animals as an aid in reducing pain, licking and chewing on wounds and surgical incisions. Kills up to 99% of surface germs in 15 seconds or less that can potentially cause an infection.

- A 2% titratable iodine that kills up to 99% of surface germs that may cause an infection
- Contains lidocaine to alleviate pain in wounds and surgical incisions
- Dries in approximately 60 seconds and forms a highly visible and durable coating
- Has a natural anti-biting/chewing agent to help prevent self-mutilation and/or cohort licking, biting and chewing

AVAILABILITY

16 oz. Bottle - Reorder No: 19001
1 Gallon - Reorder No: 19002

FOR VETERINARY USE ONLY

DIRECTIONS FOR USE

The 16 oz. bottle comes with a trigger sprayer. For refills, pour the 1 gallon into the spray bottle dialed to a spray pattern. Hold sprayer about 4–6 inches from area to be treated. Spray 1 or more times - allow to dry. Repeat as needed. Forms a highly visible coating that is durable.

WARNINGS

Do not use in the eyes. Do not use if you are allergic to povidone-iodine. Prolonged exposure may cause irritation. If swallowed, get medical help or contact a Poison Control Center right away.

Store at 20°- 25° C (68°–77° F). Excursions permitted between 15°- 30° C (59°- 86° F). Avoid inhalation.

CAUTION

Flammable - use with caution. For external use only. Keep out of reach of children. Wet hair or fur is flammable.

BEEF MARKET APPLICATION

Each year in the United States, over 15 million castration procedures are performed on male calves destined for beef production.¹ Although the benefits of castration are accepted in most countries, all the methods of castration result in behavioral changes indicative of pain and distress.² Calves also experience discomfort during dehorning. The industry needs a single product that is safe and effective in reducing pain and the risk of infection, resulting in a net benefit to the welfare of the animal. Aurora Pharmaceutical has developed a unique wound care product to address pain relief and prevent infections.
