

# BARRIER<sup>®</sup>

**Wound Care Spray With Pain Relief  
2% Available Iodine With Lidocaine**

## INDICATIONS

For topical use on animals as an aid in reducing pain, licking and chewing on wounds and surgical incisions. Kills up to 99% of surface germs in 15 seconds or less that can potentially cause an infection.

- A 2% titratable iodine that kills up to 99% of surface germs that may cause an infection
- Contains lidocaine to alleviate pain in wounds and surgical incisions
- Dries in approximately 60 seconds and forms a highly visible and durable coating
- Has a natural anti-biting/chewing agent to help prevent self-mutilation and/or cohort licking, biting and chewing

## AVAILABILITY

16 oz. Bottle - Reorder No: 19001  
1 Gallon - Reorder No: 19002

BARRIER is a Registered Trademark of Aurora Pharmaceutical, Inc.

**FOR VETERINARY USE ONLY**

**DIRECTIONS FOR USE**

The 16 oz. bottle comes with a trigger sprayer. For refills, pour the 1 gallon into the spray bottle dialed to a spray pattern. Hold sprayer about 4–6 inches from area to be treated. Spray 1 or more times - allow to dry. Repeat as needed. Forms a highly visible coating that is durable.

**WARNINGS**

Do not use in the eyes. Do not use if you are allergic to povidone-iodine. Prolonged exposure may cause irritation. If swallowed, get medical help or contact a Poison Control Center right away.

Store at 20° - 25° C (68°–77° F). Excursions permitted between 15° - 30° C (59° - 86° F). Avoid inhalation.

**CAUTION**

Flammable - use with caution. For external use only. Keep out of reach of children. Wet hair or fur is flammable.

**SWINE MARKET APPLICATION**

Each year in the United States, over 100 million pigs undergo a battery of processing procedures during the first few days or weeks of their life. These include tail docking, castration, tagging and ear notching. Each of these procedures involves a degree of tissue damage resulting in the pig experiencing pain.<sup>1</sup> The pain pigs experience from these procedures may result in reduced performance. Shoulder sores in sows also continue to be a challenge for the pork producers. The industry needs a single product that is safe and effective in reducing pain and the risk of infection, resulting in a net benefit to the welfare of the animal. Aurora Pharmaceutical has developed a unique wound care product to address pain relief and prevent infections.
