health care professional

Federal law restricts EQUISUL-SDT to be used by or on the order of licensed veterinarian. EQUISUL-SDT is contraindicated in horses with a known allergy to sulfadiazine, sulfonamide class antimicrobials, or trimethoprim. The safe use of EQUISUL-SDT has not been evaluated in breeding, pregnant, or lactating horses. Potentiated sulfonamides should only be used in pregnant or lactating mares when the benefits to the mare justify the risks to the fetus. Do not use in horses intended for human consumption. Not for use in humans. For animal use only. Keep this and all drugs out the reach of children. Refer to the package insert by visiting www.aurorapharmaceutical.com for complete product information.

Altren® (altrenogest) Solution 0.22% is contraindicated for use in mares with a previous or current history of uterine inflammation. Talk to your veterinarian about proper use and safe handling of Altren. Avoid skin contact and always wear protective gloves when administering. Pregnant women, or women who suspect they are pregnant, should not handle Altren. Refer to the package insert by visiting www.aurorapharmaceutical.com for complete product information.

Altren, CLARITY and EQUISUL-SDT, are Registered Trademarks of Aurora Pharmaceutical, Inc. BALANCE is a Trademark of Aurora Pharmaceutical, Inc. Regu-Mate is a Registered Trademark of Merck Animal Health.
