

# ORAL-PRO<sup>®</sup>

## 10% Oregano Oil Liquid Flavor Concentrate

### INDICATIONS

A natural, less toxic, residue free feed supplement for swine when facing daily environmental and handling stresses.

- Aids in reducing stress caused by environmental conditions, transporting and disease challenges faced by swine production
- Offers strong antioxidant characteristics which help strengthen the immune system while improving gut health
- Improves water intake due to palatability qualities and has a lower odor level than competitor products
- Offers a stable solution compared to some emulsion formulations that may separate and require frequent shaking

### AVAILABILITY

1 Quart - Reorder No: 24002

**FOR USE IN LIVESTOCK ONLY**

# ORAL-PRO®

Oregano

10% Oregano Oil

Liquid Flavor Concentrate

*A flavor to encourage water intake, especially during times of stress*

**Not to be used in undiluted form**

**For Animal Use Only**

1 Quart (946 mL)

## **INGREDIENTS:**

Polysorbate 80, Origanum Oil, SDA-35 Alcohol,  
Butylated Hydroxytoluene

## **DIRECTIONS FOR USE:**

Provide on an "as needed" basis during times of stress or challenge when hydration is critical. Chlorination of water when using is unnecessary, as the flavor agent should also serve as a water stabilizer.

## **DOSING:**

Mix at the following recommended rates. The use rate may be adjusted up to achieve the desired effects, or to compensate for periods of increased stress.

**Stock Solutions: Meter at 1 oz of stock solution per gallon of drinking water (1:128)**

Swine: 20 mL minimum per gallon of stock solution

**Meter at 1 oz of stock solution per gallon of drinking water or use directly in drinking water at the following rates with mixing:**

Swine: 8 mL minimum per 50 gallons

**STORAGE:** Store in a cool, dry place out of direct sunlight. Keep package tightly sealed to avoid leakage.
